

Arcology

Exotic Animal Petting Zoo

Through its maze, appears to me
A just moment fits so perfectly
Steal the time, commence our breath
Sun that sunk, Another season is dead
I am filled rows, the structure, cause with no plan i was tired, man i was tired
Where I can dream, well what can dreams do, what can dreams...
Do I live two lives? Girl my love is the sky, I am for you.
Is it cool, that ice just stops the passing seasons
(Sense it/Sets in) cool, the familiar sense, but I just can't place it
(??)Upon this silt we're as a child(??)
Your intentions keep me warm
But I know I'm wanted home.
Left with no decision, my body falls to the floor
I thought I finally found the center, that's exactly what I was searching for.
Left with no decision, my body falls to the floor
I thought I finally found the center, that's exactly what I was searching for.
Left with no decision, collapsing to the floor
Now high enough to reach salvation. I will suffer no more.
I will suffer no more, I will suffer no more
I will suffer no more, I will suffer no more
I will suffer no more, I will suffer no more
I will suffer no more, I will suffer no more
I will suffer no more, I will suffer no more
I will suffer no more, I will suffer no more
I will suffer no more, I will suffer no more
I will suffer no more, I will suffer no more
I will suffer no more !!!
Left with no decision, my body falls to the floor
I thought I finally found the answer, just seconds before, just seconds before.
Left with no decision, collapsing to the floor
I never looked for the final glimpse of my life,
but i will suffer no more, i will suffer no more
