Purple

Mace & Zyme

Cigging on my balcony, smoking out of this water bong
Back in action baby, I'm feeling like a phenomenal
So much shit has been going on, I wish something to pond around
'Bout to take a voyage, I wake up with my drum alone

Pop a couple capsules, stains a lot of them chemicals
Five star general, where A and purple medic go
Picked her up at center fold, she was looking incredible
Soon as she saw me, got a headache and needed bandage uh

I've knew no other way, I keep a poker face
I still find a ton of smile, like a joker face

Everything is purple, purple, purple
Everything is purple, purple, purple
Everything is purple, purple, purple
Everything is purple, (purple)

Stole the magic carpet, and took a trip out to Maui
All my villains gettin' rowdy, we turn the whole city cloudy
A California stoner, ridin' his roller coaster
My future lookin' bright like it's on over exposure

I'm such a rebel, I pedal because I'm free
Another level I never set up for weed
I'm bustin' out on the devil cheek when I sleep
Waking up to the same shit like my life is on repeat

Everything is purple, purple, purple
Everything is purple, purple, purple
Everything is purple, purple, purple
Everything is purple, (purple)

Smoking big, choking hits,
You should really pass that,
You should really ash that (x2)

Everything is purple, purple, purple
Everything is purple, purple, purple
Everything is purple, purple, purple

Everything is purple, purple (purple)
