

We Wont Forget

Warzone

I look back to the past
The struggle, the streets
 Memories of a time
 In the back of my mind
Now, years later we're still having fun
 Keeping it true
 United as one
 We won't forget
 In our hearts, in our minds
 It's still alive
 Our music, our lyrics
 The truth survives
No egos, no rock stars allowed in here
 Check yourself
 Are you for real?
 We won't forget
