Make You Dance

Bodylotion

Just let the music take control
And start to dance until you can't no more
Just let the music take control
And start to dance until you can't no more
Girl, I see you so excited, I know that you can't fight it
The way you dance around in your seat, girl
So tell me what you like, tonight I'll make it right
I know you wanna get with me, oh girl
I know that's what you wanna do
So get on up and show me what you got
Girl, it ain't no thing, just come and follow me
And I'll make sure we'll have a good time, get up and dance
Here's what we want you to do
Just get on up and dance
If you wanna get with me tonight
Wave your hands from side to side
Just get on up out your seat
And move around with me
I won't stop
Until I make you dance, dance
Girl, I'm watching you and every little thing you do
You know you like the way I move, girl
So just enjoy yourself, you don't need no one else
To show you what to do, so come on and move
Just let the music take control
And start to dance until you can't no more
You know just what I mean and girl, you know it ain't no thing
So get up and dance, baby, get up and do your thing with me
Here's what we want you to do
Just get on up and dance
If you wanna get with me tonight
Wave your hands from side to side
Just get on up out your seat
And move around with me
I won't stop
Until I make you dance, dance
Come on, let me see you dance
Get out your seat and move
Let me see you dance

Come on, let me see you dance
Get out your seat and move
Let me see you move, one, two
I know that's what you wanna do
So get on up and show me what you got
You know just what I mean and girl, you know it ain't no thing
So get up and dance baby, get up and do your thing with me
Here's what we want you to do
Just get on up and dance
If you wanna get with me tonight
Wave your hands from side to side
Just get on up out your seat
And move around with me
I won't stop
Until I make you dance, dance
Here's what we want you to do
Just get on up and dance
If you wanna get with me tonight
Wave your hands from side to side
Just get on up out your seat
And move around with me
I won't stop
Until I make you dance, dance
Want you to do, get up and dance
Move from side to side
Get out your seat, move 'round with me
I won't stop until I make you dance
Want you to do, get up and dance
Move from side to side
Get out your seat, move 'round with me
I won't stop until I make you dance
