

Systems Crash

Guided By Voices

Systems crash, systems crash
Systems crash the universe
All emotions are flying
Systems crash the universe
All the systems are dying
Are you watching us, watch you?
Are you, are you watching us, watch you?
Are you watching us, watch you?
Are you watching over black screen?
Are you writing her the blank page?
All the systems are dying
Systems crash the universe
All emotions are flying
Systems crash the universe
All the systems are dying
Falling all over the globe
Falling all over the globe
Falling all over the globe
