Choo Choo

The Washingtonians

My baby wants to drive the train
But don't you let her, well, don't you let her touch the tracks
I said my baby wants to drive the train
Well, all aboard, yeah, and don't forget to mind the gapDon't you let her, don't you know
She's sick and tired of
Being in the background, the passenger
Let her drive the train, ohChoo, choo
Why don't you let her drive the train?
Choo, choo
Why don't you let her drive the train? YeahShe's setting off from platform four
Make your way down, we'll shut the door
'Bout quarter to five
I said she's setting off from platform four
And they've decided that they're gonna let her driveDon't you let her, don't you know
She's sick and tired of
Being in the background, the passenger
Let her drive the train, ohChoo, choo
Why don't you let her drive the train? Oh
Choo, choo
Why don't you let her drive my train? YeahChoo, choo, choo, choo
Choo, choo, choo, choo
