

You're Not Alone

Shayne Ward

She's getting out of bed
At half past ten
She starts to comb her hair
Just an ordinary day
She looks at her reflection Off the wall
Why do I care at all
Just an ordinary day
An ordinary day
That's hurting you
Don't hide out inside yourself
If you only let the sunshine on you I promise you
You're not alone
When the lights go out at night
When you're feeling lost inside You're not alone
You're not alone
When your world is falling down
I will be the one around You're not alone
You're not alone
She's waiting for the bus it's 12.59
She's sitting on her own Just an ordinary day
She's looking at the people
Passing her by
It could be you and I
They would never dream
Of slowing down
To see if she's alright
Don't hide out inside yourself
If you only let the sunshine on you I promise you
You're not alone
When the lights go out at night
When you're feeling lost inside You're not alone
You're not alone
When your world is falling down
I will be the one around You're not alone
I'm hurting
She's hurting
I'm hurting, she's hurting
I'm so alone
When the lights go out at night

When you're feeling lost inside You're not alone
I will be the one around
