Samantha James

ah,ah,ah,ah, yeah  
upside right peter We might be a world apart (world apart)  
but you're always in my heart (always in my heart)  
when you look up at the stars (look up at the stars)  
feel my love from afar (afar afar) looking down like a shinning star (shinning star)  
dancing free with my guitar (my guitar)  
I don't know just where you are (where are you)  
with my love from afar love from afar  
feel my love we might be a world apart (world apart)  
But you're always in my heart ( in my heart)  
when you look up at the stars (at the stars)  
at my love from afar (from afar)  
Looking down like a shinning star (like a shinning star)  
Dancing free with my guitar (whit my guitar)
