Speechless

Beyonce' Knowles

You got me
You got me
You got me
You've got me speechlessWhere you been lately
Waited for you all day
Waited for you to use the key
That opens my placeMy heart starts trembling
As I hear your footsteps pace
Lock opens, doorknob turns
There appears your faceGoing out my head, I think Im losing all my mind
Drive me crazy, burning candles, making love all night
Feels so strange, it feels so crazy to be in your world
In your arms, loss for words, youve got meYou got me
You got me
You got me
You've got me speechlessLaying so closely
I feel your skin rubbing and touching me
Only sweat between us
Feeling you kissing and pleasing meI rub your back, I kiss your neck
I know that you love when we touch like that
I can feel you need me
Feels so good to me, feels so good to meGoing out my head, I think Im losing all my mind
Drive me crazy, burning candles, making love all night
Feels so strange, it feels so crazy to be in your world
In your arms, lost for words, youve got meYou got me
You got me
You got me
You got me speechlessYes, yes, yes
Yes, yes, yes
Speechless, all I can say is
Yes, yes, yes
All I can say is
Yes, yes, yes, yesKiss me, hold me
You got me speechless
