Somethings Wrong

Positive Outlook

Life is torture everyday
Someone make it go away
Can't figure out, what is causing it now
Seems impossible to stop the pain
Losing control, on the way down, must be at the end
[Chorus]Somethings wrong, don't know what it is
Can't go on, another day like this
Been so lost, not going make it, make it at
All, want to run, make it done but just can't find my way out
There's just way too much to take
The depression has refused to fade

When nothing is doing anything that's helping
Any second now about to break
Losing control, on the way down, must be at the end
[Chorus]Somethings wrong, don't know what it is
Can't go on, another day like this
Been so lost, not going make it, make it at
All, want to run, make it done but just can't find my way out
Feeling like time is running out
Nothing good can happen now
[Chorus 2x]
