

The 1st Mistake I Made

Bee Gees

I ain't got no claim to nothing
I don't mess with anyone
I walk my way living in a masquerade
And one day I looked behind me at all the things I've done
That's the 1st mistake I ever made I was born to a lonely woman in a town called Buffalo
Never knew the man who never stayed
With my 12 string on my back I discovered every track
That's the 1st mistake I ever made With a million hearts I've broken
I never kept the score
Memories of good love hate to stay
But I still remember someone who loved me so much more
That's the 1st mistake I ever made So, when nothing's worth the living and in the night I look above
Prayed, about a million times I prayed
I know my story ended when I lost my only love
That's the 1st mistake I ever made
