

Humans

Big Thief

Humans in the honest light
Love is a cold infection all right
Friday morning, one bad night
You have hurt the touch like a fever
Loosened my head from the beckoning light
Held in the palm trees of your eye
Til you let me down and leave her
You can't see me, can't see
You can't see me, can't see
You can't see me, can't see
Humans in the honest light
Love is a cold infection all right
Friday morning, one bad night
You have hurt the touch like a fever
You can't see me, can't see
You can't see me, can't see
You can't see me, can't see
