Top Of The World

The Blackout

We sat, sat on top of the world
And you said, said that you'd be the girl
Stop me, stop me fooling around
I said you'd keep my feet on the ground
Say you will stay away, say you will forget
Say you will stay away, say you will forget
I'm sorry, sorry for what I've done
So sorry for what I have become
Was this what was always missing?
Was I, was I not listening?
Say you will stay away, say you will forget

Say you will stay away, say you will forget
Don't ask me to rule with my heart or yours will break
We sat, sat on top of the world
You said, you said that you'd be the girl
To stop me, stop me fooling around
And I said you'd keep my feet on the ground
Say you will, say you will forget
Say you will, say you will forget
Say you will, say you will forget
Say you will, say you will forget
