

# Find my Heaven

## Power Quest

When the thunder rolls, lightening in the sky  
Do you carry on regardless even though you all may die ?  
And when the sun burns down, draining you of life  
Do you crumble in the desert; do you fight to stay alive ? So we ride over the mountains  
Over the mountains that stand in our way  
We will fly, higher and higher  
Searching for destiny. Where will I find my heaven ?  
Can it really be here on earth ?  
How can I know what's waiting ?  
How will I know what's meant for me ? When the devil calls, devil calls your name  
Do you run like little children, running from the game ?  
And when the evil lies buried near your heart  
Do you turn against your people, tearing them apart ? So we ride over the mountains  
Over the mountains that stand in our way  
We will fly, higher and higher  
Searching for destiny. Where will I find my heaven ?  
Can it really be here on earth ?  
How can I know what's waiting ?  
How will I know what's meant for me ? (solo) See the shadowland, hidden from the light  
Feel the terror rising on this cold deserted night  
Broken promises, not to be fulfilled  
Never trust a demon, never fall under his will. So we ride over the mountains  
Over the mountains that stand in our way  
We will fly, higher and higher  
Searching for destiny. Where will I find my heaven ?  
Can it really be here on earth ?  
How can I know what's waiting ?  
How will I know what's meant for me ? Where will I find my heaven ?  
Can it really be here on earth ?  
How can I know what's waiting ?  
How will I know what's meant for me ?
