

The Sin Crusade

The (International) Noise Conspiracy

Rob the gesture, steal the power
Make me feel ashamed of myself
Now I'm standing here all naked
And my body belongs to someone else
The sin crusade will lead me Up and burn me alive
The sin crusade will take to my [Incomprehensible] Want everybody to kick off their heels yeah
Don't fear, it's all a conspiracy
Back what your in
A full [Incomprehensible]
And I can't even, can't even touch myself
And I can't even, can't even look at you Body like a tortoise, so I said how I feel
Listening to morals hasn't got the best of me yeah
The sin crusade will lead me up and burn me alive
The sin crusade will try, try t-t-t-try, try, try But I'm a sinner baby 'cause I have sinned
I opened up the door and said won't you come in
And I'm a sinner baby 'cause I have sinned
I really liked the taste, I really did yeah
And I'm a sinner baby 'cause I have sinned
I opened up the door and said won't you come in
And I'm a sinner baby 'cause I have sinned
I really liked it yeah, I liked everything
