

# Leave Me Alone

Syleena Johnson

Ooh, ooh, ooh What makes you think that I'm gonna wait forever?  
When we both know that you're never gonna leave her  
What makes you think that I don't wanna man  
I could call my own? What makes you think that I don't want a family?  
What makes you think that I wanna be unhappy?  
Boy, I can't do this, it ain't right  
I don't think that you should call me anymore I can't sleep at night, I toss and turn  
My mind is bursting, my conscious burns  
I can't stop thinking about this love  
And if the shoe was on the other foot (Leave me alone)  
If you're not gonna be here for me  
(Leave me alone)  
If you're not gonna shit for me  
If you got a girl at home and she's pregnant  
Wondering when your comin' home (Leave me alone)  
Don't wanna know, you got problems in your marriage  
(Leave me alone)  
If you think, I'm gonna help carry your baggage  
(Leave me alone)  
'Cause I don't wanna share your love  
Baby, I can bad on my own (Listen)  
What makes you think that you could get away with murder?  
What makes it so easy for you to hurt her?  
What makes you think that I don't know that you can  
The same thing to me? I know, you think I'll do anything for ya  
'Cause I been so greedy and selfish just like you  
But now I'm finished, it ain't right  
Even though it felt so right, it's still so wrong, oh (Leave me alone)  
If you're not gonna be here for me  
(Leave me alone)  
If you're not gonna shit for me  
If you got a girl at home and she's pregnant  
Wondering when your comin' home (Leave me alone)  
Don't wanna know, you got problems in your marriage  
(Leave me alone)  
If you think, I'm gonna help carry your baggage  
(Leave me alone)  
'Cause I don't wanna share your love  
Baby, I can bad on my own Mon-day, Tuesday, Wednesday

Thursday, Friday, Saturday  
If Sunday's only the day we spent a week  
What's the purpose of us, it just ain't worth it to me(Leave me alone)  
If you're not gonna be here for me  
(Leave me alone)  
If you're not gonna shit for me  
If you got a girl at home and she's pregnant  
Wondering when your comin' home(Leave me alone)  
Don't wanna know, you got problems in your marriage  
(Leave me alone)  
If you think, I'm gonna help carry your baggage  
(Leave me alone)  
'Cause I don't wanna share your love  
Baby, I can bad on my own
