

# On Standby

## Shed Seven

Would you stay on standby  
Because I need another alibi  
In the wrong place at the wrong time  
Could you talk a fine line  
I need to know that I'll be fine  
    Bulletproof  
It's like I've never been born  
We conceive in the alleyways  
It's like I've never been born  
    We believe in other ways  
    That you do and you did  
And there's proof that we did wrong tonight  
    Could you sense a tragedy  
    Because I saw it on the bbc  
There's a panel on that channel  
    Could you walk a narrow line  
I need to know I'll serve my time  
With some useIt's like I've never been born  
    We conceive in the alleyways  
    It's like I've never been born  
    We believe in other ways  
    That you do and you did  
And there's proof that we did wrong tonight  
    And tonight you can cry if you want to  
        But it won't help you  
    You can cry if you want to  
        But it won't help you  
    To get you through this crime  
It will plague you standbyWe did wrong we did wrong
