Heartworms

Coil

Oh, there's too much blood in my alcohol
There's too much blood in my alcohol
There's too much blood in my alcohol
Oh, demons generally enter in
Demons generally enter in through my ears
I don't like what I hear

I don't like what I hear
I don't like what I see
I don't like what I see

Ghosts vomit over me
Ghosts vomit over me
Ghosts vomit over me
Layers through my eyes
There's too much blood in my alcohol
There's too much blood in my alcohol

Can't get enough to numb me
Can't get enough to numb me
Can't get enough to numb me
Can't get enough to numb me
There's too much blood in my alcohol
There's too much blood in my alcohol
There's too much blood in my alcohol
Demons generally enter in through my ears
Demons generally enter in through my ears

Each beat feeds the heartworms
Each beat feeds the heartworms at the heart of me
At the heart of me
There's too much blood in my alcohol
(Can't you get enough to numb me?)
There's too much blood in my alcohol
(Can't get enough to numb me)
There's too much blood in my heart
In my heart
(It's preventing coagulation)
I'm faithful that this stagnation's feeding my heartworms
Feeding the heartworms

Demons generally enter in through my ears
It all feels off of me
Ghosts vomit over me
Ghosts vomit over me
Ghosts vomit over me
Over the older me

This knife's gonna make some young woman a fine husband
This knife's gonna make some young woman a fine husband
This knife's gonna make some young woman a fine husband
This knife's gonna make some young woman a fine husband
