

Big Elephant

Crack the Sky

Big elephant
Big elephant
Big elephant in the room
Big elephant
Big elephant
Big elephant in the room

Look at how cool we were
Look at how hip we were
We put a big elephant in the room
He gets to take the blame
While all the big players wait
They never ever say
Never ever say what they're thinking

There's a big elephant
Big elephant
Big elephant in the room
Big elephant
Big elephant
Big elephant in the room

Look at how cool we were
We almost put a woman in there
But that wasn't controversial
This is much more fun
Watching the sheriff run
From the cowboys in the back room and on the hill

Big elephant
Big elephant
Big elephant in the room
Big elephant
Big elephant
Big elephant in the room

Look at how cool you were
There ain't no races here
Just good ol' white boys with a plan
Let the elephant play

Just take all his chips away
And together we will take back
Together we will take back our land

There's a big elephant
Big elephant
Big elephant in the room
Big elephant
Big elephant
Big elephant in the room
Big elephant
Big elephant
Big elephant in the room
Big elephant
Big elephant
Big elephant in the room

Big elephant in the room

Big elephant in the room

Big elephant in the room
