

Chemicals

Breathe Carolina

All this wasted space
This whole room it takes
Hard to stay awake
This is my escape If we feel it back up
Amphetamine rush
Set me on fire tonight, tonight It's getting critical, getting critical
I gotta let it go, gotta let it go
Your my chemical, your my chemical
Killer, killer, killer, killer Stabs me in the back
Takes me all I have
Wrestle to the floor
See you soon for more If we feel it back up
Amphetamine rush
Set me on fire tonight, tonight It's getting critical, getting critical
I gotta let it go, gotta let it go
Your my chemical, your my chemical
Killer, killer, killer, killer It's getting critical, getting critical
I gotta let it go, gotta let it go
Your my chemical, your my chemical
Killer, killer, killer, killer
