

# #SameTeam

## Swoope

(feat. Tedashii, Yaves, Dre Murray, Jgivens and John Givez)

What I'm finna quit for?  
You see me living like a king  
It's still 116 bruh  
Oh Lord! working for the same team  
I think I need a adlib from Diddy!  
Cuz' I'm-a take that each and every city  
Homie, I'm-a take that, take that  
Homie, I'm-a take that, take that  
Homie, I'm-a take that, take that  
Homie, I'm-a take that, take that  
Homie, I'm-a take that, take that  
I think I need a adlib from Diddy!  
Cuz' I'm-a take that each and every city

Lecrae sell a million records  
And my name don't get mentioned in the review  
It don't matter, get the W  
Cuz' even players on the bench get rings too  
Way deep is what the crew is  
On the same team, all running the same play  
So, you need to check your motives if you're doing this  
If you was mad Andy sold 28k  
Taking away from the mission  
All this division don't add up  
It all equals dissension  
Ya' ask me that's bad math bruh'  
So yeah, I'm on Collision, but really I am indifferent  
If you 116 and independent  
No, you King livin', junkie dream itchin'  
Humble coffee bean sippin'  
Long as the mission and the team don't seem different

Take that, take that  
Core so tight, can't break that, break that  
Might find me and the squad, clicked up in yo' city  
Preaching truth, yeah, we show em' where the faith at  
Man, what the deal is?

We show where the real is  
Am I brother's keeper?  
We pass around that good-good, but I ain't talking reefah  
And we on, and we ain't never going off  
We gon' do it like this till we gone  
Tell em' young boy, looka here  
Folk, you gotta man up  
Trap hard when you pressing in the zone  
And I ain't talking kitchen  
And we pitching and we giving you the mission  
That He gave us when He put us on  
This real life boy, it's more than a song  
Live like kings till he call us home  
Hol' up

What I'm finna quit for?  
You see me living like a king  
It's still 116 bruh  
Oh Lord! working for the same team  
I think I need a adlib from Diddy!  
Cuz' I'm-a take that each and every city

Homie, I'm-a take that, take that  
Homie, I'm-a take that, take that  
Homie, I'm-a take that, take that  
Homie, I'm-a take that, take that  
Homie, I'm-a take that, take that  
I think I need a adlib from Diddy!  
Cuz' I'm-a take that each and every city
