Murderous

I Am The Avalanche

Can't take it from me
You can't take it from me
No My cold dead hands are much stronger nowAnd no I can't figure out what the fuck I'm still doing here
So many places I can beand I'm just killing time yeah before it kills me
Come on at least its a clever way to beGet down
Stay down
It's too big a hole to be digging out
To high to see the world you hate and
You're so murderous (murderous)
So murderousHold on just listen
No wait please listen to the sound seems like it's way closer now
High up on a cloud seems like the worst part's coming down it's coming downAnd I'm just killing time yeah before it kills me
Come on at least its an honest way to beGet down
Stay down
It's too big a hole to be digging out
To high to see the world you hate and
You're so murderous (murderous)
So murderous (murderous)
You're so murderous (murderous)
So murderousWhat better way to make yourself look good than the first time
Yeah than the first time
What better way to make yourself feel good than the second time
Yeah than the second time
What better way, what better wayYou're so murderous (murderous)
So murderous (murderous)
You're so murderous (murderous)
So murderous (murderous)
You're so murderous (murderous)
So murderous (murderous)
Murderous (murderous)
You're so
