## Blue ã-yster Cult

I hear the music, daylight disc  
Three men in black said, "Don't report this"  
"Ascension," and that's all they said  
Sickness now, the hour's dread

All praise  
He's found the awful truth, Balthazar  
He's found the saucer news

I'm in fairy rings and tower beds  
"Don't report this," three men said  
Books by the blameless and by the dead  
King in yellow, queen in red

All praise  
He's found the awful truth, Balthazar  
He's found the saucer news

Dead leaves always give up motion  
I no longer feel the motion  
Where prophecy fails, the falling motion  
"Don't report this, agents of fortune"

All praise  
He's found the awful truth, Balthazar  
He's found the saucer news
