

# She's Back

## Westlife

Took some time to heal  
To get my heartbeat back  
Just when I'm ahead returning from the dead  
She's back again She knows just what to say  
She always gets her way  
Just when I was free she's back inside of me  
She's back again So tell me why the hell I hear the music  
Every time she calls I hear music  
Is it just the way she loves to confuse me  
Oh baby, ohh just when I moved on believed that she was gone She's back again, she's back  
She's back again, she's back Like predator and prey  
She'll tear my heart away  
She'll chew me to the bone, leave me rotting here alone  
'Til she's back again So tell me why the hell I hear the music  
Every time she calls I hear music  
Is it just the way she loves to confuse me  
Oh baby, ohh just when I moved on believed that she was gone She's back again, she's back  
She's back, she's back  
She's back, she's back  
She's back, she's back So tell me why the hell I hear music  
Every time she calls I hear music  
Is it just the way she loves to confuse me  
Oh baby, ohh just when I moved on believed that she was gone She's back, oh yeah  
Every time she calls I hear music  
Is it just the way she loves to confuse me  
Oh baby, ohh just when I moved on, believed that she was gone She's back again, she's back  
She's back, she's back  
She's back, she's back  
She's back, she's back, she's back
