

# Born to Love You

DJ Bobo

[First Verse]

Remember we were dancing all night long  
We could touch the sky  
Remember the name of that song  
I believe I can fly?  
Remember the nights at Drive-in-Cinema?  
On the screen, out of the blue.  
Remember the Pathos, your good old car  
I guess I had a crush on you

[Chorus]

Oh, baby, I'd never lie to you!  
Before you run away  
I really have to say  
I'm born to love you!  
Uh, crazy I feel the same way too  
Can't wait another day,  
I must confess and say  
I'm born to love you!

[Second Verse]

Remember how you looked into my eyes?  
You knocked me out, you drove me mad,  
Remember, uh, the night was cold as ice,  
It was the best I ever had.  
Remember the name of the drink you had?  
It was a Virgin Rum.  
Remember every single word you said?  
I madly fell in love!

[Chorus]

Oh, baby, I'd never lie to you!  
Before you run away  
I really have to say  
I'm born to love you!  
Uh, crazy I feel the same way too  
Can't wait another day,  
I must confess and say  
I'm born to love you!

[Chours Unplugged]

Oh, baby, I'd never lie to you!  
Before you run away

I really have to say  
I'm born to love you!  
Uh, crazy I feel the same way too  
Can't wait another day,  
I must confess and say  
I'm born to love you!

[Chorus]

Oh, baby, I'd never lie to you!  
Before you run away  
I really have to say  
I'm born to love you!  
Uh, crazy I feel the same way too  
Can't wait another day,  
I must confess and say  
I'm born to love you!
