

Chivalry

Thao Nguyen

I could tell in the way
He did not kiss back
What's the use in painting faces
You're never gonna find a shade to match

Well yours is a common name
And I hear it all the time
Could belong to anyone
It could never be mine

I am tired
I am through
When I love I will love so hard
Harder than I could love with you

There's nothing in your eyes
But slightly amused
An offer of me you politely refused
Is it that my heart beat too loud
Is it that I did not bid it come down
Your round about etiquette
You hold the door but you won't let me in

I am tired
I am through
When I love I will love so hard
Harder than I could love with you
Harder than I could love with you

I won't make you flex emotion
I won't make you come a little closer
Do what you want
Don't do it for me
What's the use in chivalry

I am tired
I am through
When I love I will love so hard
Harder than I could love with you

Harder than I could love with you

I could tell in the way
He did not kiss back...

I could tell in the way
