Beaumont

Element Eighty

I know you're the instigation that's haunted me for so long
I swear i'll never forget that
My blood is running through your veins
I know you're the infestation that's poisoned me for so long
I swear i'll never forget that
My blood is running through your veins
Reasons have lost their meaning now
Cause i'm addicted to everything
This is the end of the reasons that lost their meaning now
Cause i'm addicted to everything
This is the end of it all

Reasons that lost their meaning now
Cause i'm addicted to everything
Addicted to everything
This is the end
The end of you
This is the end
This is the end
This is the end of the reasons that lost their meaning now
Cause i'm addicted to everything
This is the end of it
