I'll Be the One

Reed Robertson

From the setting sun
to the breaking dawn
And through the darkness
though the night is long
If you ever need somebody
I'll be the one

And if you lose your way
and you can't hold on
I'll be right beside you
take my outstretched arm
If you ever need somebody
I'll be the one

And I'll live my life for you
I'll fight for you
I'll die for you
It's me and you
no matter what may come
And I'll walk through fire for you
if you want me to
I'll swear it's true
You can call me crazy
but I call it love
If you ever need somebody
I'll be the one

Every waking hour
every sleepless night
just call my name and
I'll be by your side
If you ever need somebody
I'll be the one

And I'll live my life for you
I'll fight for you
I'll die for you
It's me and you
no matter what may come

And I'll walk through fire for you
if you want me to
I'll swear it's true
You can call me crazy
but I call it love
If you ever need somebody
I'll be the one

Just take me as I am
and love will be our all
So won't you hold my hand
and together we will fall

And I'll live my life for you
I'll fight for you
I'll die for you
It's me and you
no matter what may come
And I'll walk through fire for you
if you want me to
I'll swear it's true
You can call me crazy
but I just call it love

And I'll live my life for you
I'll fight for you
I'll die for you
It's me and you
no matter what may come

I'll walk through fire for you
if you want me to
I'll swear it's true
You can call me crazy
but I just call it love

If you ever need somebody
I'll be the one
