

# I'll Be the One

Reed Robertson

From the setting sun  
to the breaking dawn  
And through the darkness  
though the night is long  
If you ever need somebody  
I'll be the one

And if you lose your way  
and you can't hold on  
I'll be right beside you  
take my outstretched arm  
If you ever need somebody  
I'll be the one

And I'll live my life for you  
I'll fight for you  
I'll die for you  
It's me and you  
no matter what may come  
And I'll walk through fire for you  
if you want me to  
I'll swear it's true  
You can call me crazy  
but I call it love  
If you ever need somebody  
I'll be the one

Every waking hour  
every sleepless night  
just call my name and  
I'll be by your side  
If you ever need somebody  
I'll be the one

And I'll live my life for you  
I'll fight for you  
I'll die for you  
It's me and you  
no matter what may come

And I'll walk through fire for you  
if you want me to  
I'll swear it's true  
You can call me crazy  
but I call it love  
If you ever need somebody  
I'll be the one

Just take me as I am  
and love will be our all  
So won't you hold my hand  
and together we will fall

And I'll live my life for you  
I'll fight for you  
I'll die for you  
It's me and you  
no matter what may come  
And I'll walk through fire for you  
if you want me to  
I'll swear it's true  
You can call me crazy  
but I just call it love

And I'll live my life for you  
I'll fight for you  
I'll die for you  
It's me and you  
no matter what may come

I'll walk through fire for you  
if you want me to  
I'll swear it's true  
You can call me crazy  
but I just call it love

If you ever need somebody  
I'll be the one
