

Make It Back

[Lesley Roy](#)

I was blinded by you
I got lost in your eyes too afraid to find you
And too late to read the signs
To read the signs I was young and foolish
Didn't know how to love
Now I see the truth in
All that's left undone Now I know that I need you
Only hope is just to see you
Scream your name through the silence
See your face in the distance 'Cause I'm crawling and falling
Whatever I must do to make it back to you Feel you with me always
In everything I do
Now a day is dawning
We can make it through 'Cause I know that I need you
Only hope is just to see you
Scream your name through the silence
See your face in the distance 'Cause I'm crawling and falling
Whatever I must do to make it back Praying for a second try to be in your arms
Now that I have realized just who we are
You're the one who makes me feel alive Now I know that I need you
Only hope is just to see you 'Cause I know that I need you
Only hope is just to see you
Scream your name through the silence
See your face in the distance Now I know that I need you
Only hope is just to see you
Scream your name through the silence
See your face in the distance 'Cause I'm crawling and falling
Whatever I must do to make it back to you
