

# Incommunicado

## Field Report

I wish the words would fail me just for once  
(Just once)  
Keep in incommunicado  
(You don't say a word)  
Look for the present tense and come to my senses  
(Come pick me up)  
Just like a desperado  
(Ado)  
I talked for twenty minutes  
By the time the party ended, you'd forgotten  
I'm still thinking about it  
Five years later  
You spoke an unfamiliar dialect  
(Comme ca?)  
Two and a half months over  
(Over)  
Next think, I knew someone had called for the check  
(Check please)  
And you were gone before I turned it over  
I dreamed we were alone all night  
In a house made out of beds  
And nothing happened  
I think about it every time I see you  
That's when I try to remember  
There were never any terms we could agree to  
Now can I please have a moment of your time?  
(Can I please have a moment of your time?)  
For I have the strength to change my mind  
(Read my mind)
