## **Sidewalk Stars**

## **Yonder Mountain String Band**

You looked at me through old windows And said, "Dust is all I know" And you're so clean and I'm so tired Like lovers' smiles and green marker milesChorus: Can't go back that's much too far I'm asking you to laugh But after all You love a tragedyHope remains a sidewalk star Could you stay right where you are You're so smooth, and I'm on fire Holding on, just watching it unwind[ Chorus x2 ]
