Monster

Dev

Chorus]
Call the doctor, call the doctor
Must be something wrong with me (oh-h)
He's a monster, why do I want ya
Please tell me, please tell me
He's a monster (aye)
He's a monster (oh)
That boy, he's a motherf*cking monster
But I love him, yeah I love him
Ooh ah, ooh ah ah
He's right, don't start (no no)
'Til you're his own, form of art and (oh oh)
He's doing his part
Cause he's winning my heart (my heart)
There were no sparks (no no)
Just a gasoline fire burning through the dark and (oh oh)
He's doing his part
Cause he's winning my heart (my heart)
Is he human, does it matter
I know he's what I'm after
I can reel him, from disaster
I know (I know)
[Chorus]Call the doctor, call the doctor
Must be something wrong with me (oh-h)
He's a monster, why do I want ya
Please tell me, please tell me
He's a monster (aye)
He's a monster (oh)
That boy, he's a motherf*cking monster
But I love him, yeah I love him
Ooh ah, ooh ah ah (ah)
Most people are scared (are scared)
When they look him in the eyes, all they see is fear (but)

Let me make this clear (this clear)
I want him near (him near)
Most people can't sleep (can't sleep)
Feeling he's out, on the streets (but)
He is my creep (my creep)

He is my creep (my creep)
Is he human, does it matter (ohhh)
I know he's what I'm after
I can reel him, from disaster (ohhh)
I know (I-I-I know)
[Chorus]Call the doctor, call the doctor
Must be something wrong with me (oh-h)
He's a monster, why do I want ya
Please tell me, please tell me
He's a monster (aye)
He's a monster (oh)
That boy, he's a motherf*cking monster
But I love him, yeah I love him
Ooh ah, ooh ah ah
[Bridge]He's sick, he's fresh
He doesn't really know how to dress (that's why I like it)
He's a beast, he's weird
He, he never looks in the mirror (and I like it)
[Chorus x2]Call the doctor, call the doctor
Must be something wrong with me (oh-h)
He's a monster, why do I want ya
Please tell me, please tell me
He's a monster (aye)
He's a monster (oh)
That boy, he's a motherf*cking monster
But I love him, yeah I love him
Ooh ah, ooh ah ah
