With You

Xscape

I wanna spend my whole life with you
There's nothing else better than being with you
I wanna spend my whole life
My whole life with youDo you remember all those precious times
We shared back in the past
No one knew about the things we did
Out in the grassWe're older now
And we both need companionship
So let's stop these games
And get on with our relationshipAin't no second guessin' about
The way I feel when I'm with you
It makes me feel so real
Ain't no living without you
'Cause you're all the man I need
And I want you just for meI wanna spend my whole life with you
There's nothing else better than being with you
I wanna spend my whole life
My whole life with youWhy is it
When I say I love you
You shy away from me?
When lovin's all I wanna doEven though we've never been
More than just friends
There's no reason
We should have to let our feelings endAin't no second guessin' about
The way I feel when I'm with you
It makes me feel so real
Ain't no living without you
'Cause you're all the man I need
And I want you just for meI wanna spend my whole life with you
There's nothing else better than being with you
I wanna spend my whole life
My whole life with you
