In Time

Ben Moody

Have we come so far
Could we even turn back now
I'd love to forgive
It seems that I've forgotten how
Can my heart heal now
Is there time left for meIt seems the grace
Of God has left this placeSo we make amends
What consequence
We live and die togetherFor right or wrong
We take too long
To find our way to neverWe all belong
We'll all belong
In timeWhy do children learn
To fear before to love
We're taught don't touch
Just avoid those without enough
When you pass their hands
Just pretend like you don't seeIt seems the grace
Of God has left this placeSo we make amends
What consequence
We live and die togetherFor right or wrong
We take too long
To find our way to neverWe all belong
We'll all belong
In timeHolding back the tears
We forget they are
Taking back the years
Of our innocenceHolding back the tears
We forget they are
Taking back the years
Of our innocenceWe are children of the damned
We are children of the damnedSo we make amends (We are children of the damned)
What consequence
We live and die togetherFor right or wrong (We are children of the damned)
We take too long
To find our way to neverWe are children of the damned
We are children of the damned
We are children of the damned
We are children of the damned
