

# Breathless

DIO

No no no no no no, you said a single word  
But no one really heard  
Sometimes we scream alone It's always worse at night  
When darkness kills the light  
We're in the danger zone You wait with pounding heart  
You know it's just the start 'Cause you're breathless, ready to burn  
Breathless, the circle still turns  
Breathless, willing to learn  
You're breathless, yeah Living inside your mind  
Who knows the things you'll find  
There could be hell or rainbows But it's a funny thing  
The more you feel the sting  
You're just a leaf that the wind blows You've been this way before  
One step and you're through the door And you're breathless, ready to burn  
Breathless, the circle still turns  
Breathless, you willing to learn  
Breathless oh yeah alright You said a single word  
But no one really heard  
Sometimes we scream alone It's always worse at night  
When darkness kills the light  
We're in the danger zone You wait with pounding heart  
You know it's just the start 'Cause you're breathless, ready to burn  
Breathless, the circle still turns  
Breathless, willing to learn  
You're breathless, yeah You're breathless alone in the light  
Breathless, but the feeling is right  
Breathless, ready to burn  
You're breathless  
Said a single but no one really heard  
It's always worse at night  
'Cause when darkness kills the light, then you're breathless  
Yeah, you're breathless, ready to burn  
You're breathless, you're willing to learn  
Breathless, while the circle still turns  
You're breathless, breathless  
Breathless alone in the night, breathless the feeling ain't right?  
Breathless, I'm ready to burn I'm ready to burn
