

# Didn't Go Too Far

Conner Smith

Well, her eyes were the home team colors  
Her mama was the homecoming queen  
Her pops coached at the high school  
In that town, her roots ran deep  
She always talked about settling down  
Building a house off a gravel road  
she was my first everything  
I thought she'd be my last  
Guess the fire of a young love  
Sure burns out fast  
When you hear goodbye, tears in her eyes  
And then she drives five minutes home  
There's only one bar, there's only one church  
How do I move on when I see her everywhere I turn?  
I can't go anywhere to get away, and it's hell on the heart  
'Cause the one that got away didn't go too far  
I wish she was like every other girl chasing big city dreams  
She didn't go to every game and our mamas didn't talk every week  
'Cause all I hear about when I go out is how you're doing good  
There's only one bar, there's only one church  
How do I move on when I see her everywhere I turn?  
I can't go anywhere to get away, and it's hell on the heart  
'Cause the one that got away didn't go too far  
I wish she'd have packed her bags, never looked back  
'Cause it's tearing me apart  
There's only one bar, there's only one church  
How do I move on when I see her everywhere I turn?  
I can't go anywhere to get away, and it's hell on the heart  
'Cause the one that got away didn't go too far  
No, didn't go too far
