

Wrapped In Your Arms

Fireflight

Is this the whole picture
Or is it just the start?
Is this the way you love me?
You're capturing my heart
I used to try and walk alone
But I've begun to grow
And when you tell me just to rest
I'm finally letting go
I let go

And I'm here to stay
Nothing can separate us
And I know, I'm ok
You cradle me gently
Wrapped in your arms.... I'm home

I'm seeing so much clearer
Looking through your eyes
I could never find a safer place
Even if I tried
All the times I've needed you
You've never left my side
I'm clinging to your every word
Don't ever let me go
Don't let go
