

# Love and Alcohol

## Terry Allen Band

Darlin' you look good tonight  
That cotton dress sure suites you right  
But I may not be thinking what you're thinking

Before I go and promise you  
All those things that lovers do  
Girl you ought'a know that I've been drinking

Under normal circumstances I would never lie to you  
But the devil in me dances when I've had one or two

You know  
Love and Alcohol  
I can't touch that stuff at all  
Always seems to get the best of me  
The combination's dangerous  
Every time I mix 'em up  
I end up saying something I don't mean  
It ain't my fault  
Blame it on Love and Alcohol

If you happen to decide  
To take me home with you tonight  
Baby I'll be glad to go along

But there'll be no I told you so's  
I tell you now so now you know  
Come tomorrow morning I'll be gone

So before you have another and before I finish mine  
Girl let me warn you one more time

chorus
