

# Me Vs Myself

## Maryslim

Now it's me against myself  
In the biggest fight of our lives  
So many roads we have been down  
I'm so terrified of getting this right  
    And it's you  
    Who I run back to  
    But it's you  
    Who I won't let through  
Right now it's me against myself  
    To prevail or to die  
    Coming up just to fall short  
    I'll come out a survivor  
    Swimming out to the deep end  
    Using up all my options  
    Something isn't right  
    I see it in my eyes  
    Repeat and start again  
    When I look in the mirror  
    There's a skeleton staring at me  
    Rising up from a graveyard  
    With the secrets I buried so deep  
    And it's you  
    Who I run back to  
    And it's you  
    Who I won't let through  
Right now it's me against myself  
    Is it real or a lie

I do it to myself,  
    I do it to myself  
    Coming up just to fall short  
    I'll come out a survivor  
    Swimming out to the deep end  
    Using up all my options  
    Coming up just to fall short  
    I'll come out a survivor  
    Swimming out to the deep end  
    Using up all my options  
    Something's not right

She sees it in my eyes  
Repeat and start again  
    I do it to myself,  
    I do it to myself,  
    I do it to myself  
Coming up just to fall short  
    I'll come out a survivor  
Swimming out to the deep end  
    Using up all my options  
    So call me out, call me out  
Time's running out, running out  
    So call me out, call me out  
    Something isn't right  
    I see it in my eyes  
Repeat and start again
