

# All I Ever Need

Austin Mahone

Don't the water grow the trees?  
Don't the moon pull the tide?  
Don't the stars light the sky?  
Like you need to light my life?

If you need me anytime  
You know I'm always right by your side!  
See, I've never felt this love  
You're the only thing that's on my mind

You don't understand how much you really mean to me  
I need you in my life  
You're my necessity  
But believe me you're everything  
That just makes my world complete  
My love is clear, the only thing that I love

You're all I ever need, baby you're amazing  
You're my angel come and save me  
You're all I ever need, baby you're amazing  
You're my angel come and save me

Don't the water grow the trees?  
Don't the moon pull the tide?  
Don't the stars light the sky?  
Like you need to light my life!

We can do anything you like  
I know we both can get it right tonight  
You got your walls built up high  
I can tell by looking in your eyes

You don't understand how much you really mean to me  
I need you in my life  
You're my necessity  
But believe me you're everything  
That just makes my world complete  
My love is clear, the only thing that I love

You're all I ever need, baby you're amazing

You're my angel come and save me  
You're all I ever need, baby you're amazing  
You're my angel come and save me

When it comes to you  
Baby I'm addicted  
You're like a drug, no rehab can fix it  
I think you're perfect baby, even with your flaws  
You ask what I like about you  
Ooh, I love it all  
When it comes to you  
Baby I'm addicted  
You're like a drug, no rehab can fix it  
I think you're perfect even with your flaws  
You ask what I like about you  
Oh, I love it all

You're all I ever need, baby you're amazing  
You're my angel come and save me  
You're all I ever need, baby you're amazing  
You're my angel come and save me
