Sean Van der Wilt

(INTRO)Paging doctor Sean V.
Doctor Sean V. to emergency please
Emergency room for doctor Sean V.
Where the fuck are you(Verse1)Quit messing with my head baby
Cause I can read the sign so well
I see it your charts your crazy
And sicker then we both could ever tell, oh
You don't show it but you know that you had it all
You need a little medication
And I know for sure that I'm not the cureAnd I, I, don't really need another patient
I'm sorry I gotta say that baby you gotta leave tonight
I'm through with your examinations and no
I'm not the cure
I'm not the cure(Pre - Chorus)I never love
You the way that you are cause my heart will remain
Forever young
Wish I could go back in time would have told you goodbye
Cause(Chorus)I, I, I, I, I, I'm not your doctor
I, I, I, I, I, I'm not your doctor
Say I, I, I, say I, I, I,
I'm not saving your life baby I'm not your doctor tonight(Verse 2)I know your heart needs fixing
Cause I could never make it beat
Your coming with the same old symptoms
But all your damn problems ain't for me, no
I don't need this, It's no secret I'm not the one, no
I am not your medication so we'll let it go, let you overdose
(Pre - Chorus)I never love
