

# Pretty Things

## Whyte Seeds

Pretty things, so what if I like pretty things?  
Pretty lies, so what if I like pretty lies?  
From where you are to where I am now  
    I need these pretty things  
    Around the planets of my face  
    Everything's a sign of my astrology  
    From where you are to where I am now  
        Is it's own galaxy  
    Be a star and fall down somewhere next to me  
        And make it past your color TV  
    This time will pass and with it, will me  
        And all these pretty things  
    Don't say you don't notice them
