

Timeless

Case

Looking at the tears build
In the welts of your eyes
See, you don't wanna deal with stranger anymore
I know I fuck up sometimes, but[Chorus:]
Do I need to remind you
That our love is timeless
And, took forever to find your love
Girl, I'll love is timeless And you don't even wanna try anymore
They say the one that loves you the most
Might break your heart
I never thought things would fall apart
No not this way, no not this way[Chorus] Do I need to remind you
Thought I felt lost with you
Come, let me talk about it
A better me would leave if you just walked away
So, I'm begging you to stay
(I need you girl, I need to remind you)[Chorus] Timeless
Need to remind you
I'll remind you everyday
For the rest of our lives
