Judas Rising

Judas Priest

White bolt of lightning
Came out of nowhere
Blinded the darkness
Creating the storm
War in the heavens
Vengeance ignited
Torment and tempest
Attacks like a swarmForged out of Flame
From chaos to destiny
Bringer of pain
Forever undyingJudas is RisingEternal betrayer
Ice cold and evil
Taking no prisoners
Dark prince of the world
Humanity trembles
Enslaving you sinners
You can't beg for mercy
For none will be saved
The burden of sin
Echoes the prophecy
Ascending from hell
Forever despisingJudas is RisingTheir faith is revealed
Deceivers are crying
By crucified steel
EvangelizingJudas is Rising
Judas is Rising
