Still Ray

Raphael Saadiq

I'm comin' home to you, wear something see through
So I can see your heart
For night can never come soon enough for me
I watch the sky all day
Night is where I find you and peace of mind
My days are filled with glee
That's why I truly give you what you need
Because you love me for me
Good runs all through you, I can't help myself
You found my weakest spot
What better woman to, be there sittin' next to
That's why I'll always be with you
Yes, I'm funny like a clown, but I'm never down
As long as you're around
There will never be another one for me
'Cause you are shinin' 'neath me
Ooh, ooh
Oh, oh
Oh, oh, oh
Oh, oh, oh, oh
You'll never have to beg me to come to bed
I'll warm your bed each night
If you want me to that's what I will do
That's why I'll always be with you
