

Anaesthetist (Koven Remix)

Enter Shikari

(Anaesthetist)
(Anaesthetist) Doctor, fetch the Anaesthetist (Anaesthetist)
Fetch the Anaesthetist, so when I go under the knife I believe in this
Fetch the Anaesthetist (Anaesthetist)
Fetch the Anaesthetist, so when I go under the knife I believe! You fucking spanner!
Just a cog in the industry, you're part blind
You shared your blood from the convicted
You parasite!
You play god and you don't care who it affects
You suck the blood of the afflicted
You suck the blood of the afflicted Illness is not an indulgence which you should pay for,
Nor is it a crime for which you should be punished
For this conviction I would endanger my health
Shut it! Oi!
Just 'cause you break bridges and lust for fame
No you won't see us participating in that game
Keep it twisted, take the success
'Cause all I really want is what's beating in your chest Doctor, fetch the Anaesthetist. (Anaesthetist)
Fetch the Anaesthetist, so when I go under the knife I believe in this
Fetch the Anaesthetist. (Anaesthetist)
Fetch the Anaesthetist, so when I go under the knife I believe! We drink to your health!
But just one thought,
This round's on you.
And every day you roll the dice.
We drink to your health!
We capitalise on your condition!
Bad luck, you pay the price
Bad luck
You pay the price Fetch the Anaesthetist
(Anaesthetist)
Fetch the Anaesthetist
I wanna go under the knife I believe in this You sold us short,
You will not profit off our health!
Step the fuck back
