

# Gonna Be My Girl

**Eric Benet**

First time I ever saw you  
Was in crowded caffe  
I was starring at my future  
Face to face.  
You were like a loving memory,  
Though we never met before  
And you smiled, and my heart was yours forever more!  
Of all the things I've known they came true  
I've never been so sure in all my life,  
I don't know how, no no  
I don't know where, don't know where  
  
I don't know what I'm gonna say  
To make it all begin,  
But I do know one thing, one thing  
Sure as anything,  
Sure love is still alive in this world  
You gonna be my girl!  
You gonna be, gonna be  
You gonna be my girl.  
I was going through soem changes  
And I know I broke your heart  
But I'm working on myself since we've been apart  
Yes, girl...
