

# Should Anything Go Wrong

## Face to Face

In case of emergency  
Break this glass  
And pray the alarm makes a sound  
The thought is killing me  
I'm here on my own  
you're nowhere left to be found[Chorus:]  
I can't explain, if there is a way  
I'm not going to lie to you now, should anything go wrong  
There's little that I can do now, should anything go wrong  
Please take these things, and don't come try and find meFor your security  
Please try and stay calm  
Remember what we talked about  
I got a hole in me  
But I'm not afraid  
And neither should you be for now
