Fly Me Courageous

Drivin' N' Cryin'

I've got you on the loose, I left you groovin'
I've got you on the beat, I left you broken
But won't you take my place since long ago I wandered
Way out on a cliff with the brilliance of an angelSo fly me
Courageous
So fly me
CourageousMother America is brandishing her weapons
She keeps me safe and warm by threats and misconceptions
So if you break the chains, you'll have to shake me
And if you break my heart, you'll have to take meWoh lady, won't you take it easy
Push me out of
Who, won't you take it easy lady
Push me out of
Who, won't you take it easy lady
Push me out ofSo fly me
CourageousI heard your whispers from the bottom of the canyon
It's not so hard to hide the rattle snakes confusion
Wrap me high in the sky circle me with stallions
She flew from peak to peak on the freedom of an eagleSo fly me
Courageous
Fly me
Courageous
So fly me
Courageous
